

# Health and Social Care Cambridge Technical Level 3

**Examination Board:** OCR

**Qualification:** Cambridge National (Distinction\*/Distinction/Merit/Pass) which are all worth UCAS points

**Teacher Contact:** Mrs A. Clark

**Entry Requirements:**

Grade C or above in Child Development, would be ideal but not necessary. Candidates need a real passion for learning about ensuring the health and well-being of all people and how to act as a professional in the area.

A Cambridge Technical in Health and Social Care will not teach you how to look after people but gives you the skills to be able to work within the Health Care sector whether; for example as a midwife, nursery nurse or carer.

**What will I study and how will I be assessed?**

**COMPULSORY UNITS**

Unit 1: Building positive relationships in health and social care (coursework portfolio)

Unit 2: Equality, diversity and rights in health and social care (examination 1.5 hrs)

Unit 3: Health, safety and security in health and social care (examination 1.5 hrs)

Unit 4: Anatomy and physiology for health and social care (examination 2 hrs)

**OPTIONAL UNITS: 2 from -**

Infection control; supporting people with learning difficulties; nutrition for health; sexual health, reproduction and early development stages; the impact of long term psychological conditions; supporting people with dementia; supporting people with mental health conditions; psychology for health and social care; sociology for health and social care; public health.

Both optional units are assessed through coursework

**Am I suited to this course?**

You would be well-suited to studying Health and Social Care Cambridge Technical if you:

- Want to develop your interest in care.
- Are good at working independently on writing coursework and meeting deadlines
- Develop skills that will enable you to work with people of all ages.
- Want to continue with further study and training within the health sector.

**Is there anything else that I need to know?**

This course is the equivalent to an A level and requires a lot of independent research and essay writing as well as preparation for exams.

**What other subjects does it complement?**

Health and Social Care complements a range of subjects especially the Sciences, and Social Sciences and in particular Biology, Sociology, Psychology and Physical Education.

This course will prepare and equip students who want to go on to study a variety of courses in Health and Social Care and related subjects, e.g. Social Work, Occupational Therapy, Nursing and Midwifery.
